## How should I decorate my bedroom walls?

Bedroom wall decor should blend both aesthetics and function, according to Eleanor Trepte, cofounder of [Dekay & Tate](#), in Denver. “For instance, you may need a mirror in your bedroom, so try to choose one that injects personality and works within the overall color scheme and vibe of the space,” she says.

“A bedroom should always feel like a retreat—a place to unwind at the end of the day,” adds Bambi A’Lynn Bratton, owner and interior designer of [Bambi A’Lynn Interior Design](#) in Austin. For bedroom wall decor, that means taking a holistic approach and considering how all the design features of a space work together. “Artwork and mirrors are excellent wall decor choices, but I also love incorporating those less-expected moments of texture and pattern with wall coverings,” Bratton says.

## Select a wallpaper with a lively pattern

Wallpaper can be a fun way to add visual interest and movement to a bedroom design. Pick your wall covering towards the beginning of the design process for the best results and ensure it feels cohesive with the space's fabrics and finishes. "In this case, because the wallpaper had a detailed pattern, we chose fabrics that had larger-scale patterns or solid textures so as not to compete visually," says Erin Coren of [Curated Nest](#) in Greenwich, Connecticut, who designed the space with her cofounder Lina Galvão. A limited color palette keeps the space feeling calm and serene.
